Project Proposal

Project Name: Nearby Taxi

Project Objectives: In this project, we will develop a web-based taxi booking system called Nearby Taxi. This website will allow passengers to book taxi services. Our main goal is to build customer registration/login, online booking, and administration. In this project Customer can book a taxi, customer can choose pickup date and also drop up date and Customer can also see the details of taxi and booking confirmation.

Tools & Technologies: In our project, we will use

- HTML5
- CSS3
- Bootstrap
- JavaScript
- PHP
- MySQL / MongoDB
- Node.js/React
